

Syllabus

Principles of Economics II ECON 202 SPRING 2025

Instructor	David Youngberg, Ph.D. Department of Business and Economics Montgomery College—Rockville
MC Econ Website	http://cms.montgomerycollege.edu/economics/
Personal Website	www.dyoungberg.com
Email	david.youngberg@montgomerycollege.edu
Office number	240.567.5144
Office Location	HU 241
Office Hours	<u>Tuesdays</u> : 12:30pm to 2:30pm <u>Wednesdays</u> : 11:30am to 2:30pm Appointments outside these times are also available
Course Information	CRN #30383 TR 9:30am to 10:45am HU 323
Course Length	01/28/2025 to 05/18/2025
Course Materials	Materials (topic notes, practice exams, syllabus) will be available on my website and on Blackboard.

I. Course Description

Covers microeconomic theory half of a one-year course in economics including supply and demand; demand and utility; analysis of costs and long-run supply; problems of agriculture; profit maximization; imperfect competition; theory of production; pricing of factor inputs; interest; international trade; and current economic problems, such as poverty, affluence, race, cities, and polluted environment. Three hours each week.

Prerequisites: High school algebra or its equivalent or consent of department.

Assessment levels: ENGL 101/101A; MATH 097/099; RD 120. Three hours each week.

II. General Education

ECON 202 fulfills a General Education Program Behavioral and Social Sciences Distribution. Montgomery College's General Education Program is designed to ensure that students have the skills, knowledge, and attitudes to carry them successfully through their work and personal lives.

This course provides multiple opportunities to develop two or more of the following competencies: written and oral communication, scientific and quantitative reasoning, critical analysis and reasoning, technological competency, and information literacy. For more information, please check www.montgomerycollege.edu/gened.

III. Resources

- Greenlaw, Steven A. and Timothy Taylor. *Principles of Macroeconomics*. Openstax. (This is a free online textbook.) <https://openstax.org/details/principles-microeconomics>
- Frank, Robert. *The Economic Naturalist: In Search of Explanations for Everyday Enigmas*. 2007. (Note this is not required, only suggested.)
- You must sign up and use Blackboard; homework will be on Blackboard and papers will be submitted through it.
- In addition there are several online readings. ***Do not neglect them.***

IV. Student Learning Outcomes

Upon completion of this course, the student will be able to:

- 1) Apply basic cost, production, and profit concepts to business.
- 2) Analyze market structures and their effect on business behavior.
- 3) Apply basic economic concepts such as scarcity, opportunity cost, and marginal analysis to everyday life situations.
- 4) Analyze the model of supply and demand to determine prices and quantities.
- 5) Apply the concept of elasticity to business pricing and public policy decisions.
- 6) Analyze government price and quantity controls.
- 7) Identify the situations where unregulated markets fail and ways government can correct these market failures.
- 8) Use economic principles to make business decisions such as what price to charge, how much to sell, and how many employees to hire to maximize profits.

V. Format and Procedures

This course is made up mostly of lecture with class discussion and class activities to underline important concepts. Class discussion is paramount to the class, since I find interaction of this sort particularly valuable in understanding the economic ideas and how they fit into the world.

VI. My Assumptions

I assume you have a basic curiosity about the world around you. I assume you are familiar with basic algebra and can correctly interpret diagrams and tables. I assume you will do the indicated readings/videos/podcasts.

VII. Your Responsibilities

You are responsible for all information in class even if you are late or absent. You are also responsible for checking your campus email daily. Course changes, suggestions for study, and other important messages will be posted by campus email. Bear in mind your Montgomery College email is the official means of communication.

You will turn off cell phones during exams and during class. Keep disruptions (e.g. side conversations) at a minimum (i.e. zero).

If you have a question, you are strongly encouraged to email me or visit my office hours. Your method of contact should be through my email address at Montgomery College. Do ***not*** email me through other methods, including Blackboard. I will not respond to such messages.

VII. Asking For Help

Please let me know if something is going on in your personal life that's making it difficult for you to succeed in this course. I don't need to know the details if you don't want to share them but if you're struggling with something, it's worth it to reach out to me (or another professor, or counseling, if you prefer).

To quote a Facebook post of the late, great Steve Horwitz:

I know you think you can handle it, and I know that you think coming to us this way is a sign of weakness. But you're wrong. Coming to us is smart. It's brave. It's strong. It shows that you want to succeed. Most faculty are reasonable about these sorts of things, but we can't help you if we don't know.

We are here to help you succeed.

VIII. Basic Needs Statement

Any student who has difficulty accessing sufficient food to eat every day, or who lacks a safe and stable place to live, is urged to contact the Dean of Students Affairs on your campus. Furthermore, please notify the professor if you are comfortable in doing so. This will enable the professor to provide any resources that they may possess. We know this can affect performance in the course and Montgomery College is committed to your success.

The Dean of Student Affairs on the Rockville campus is Dr. Tonya R. Mason, tonya.mason@montgomerycollege.edu.

The Student Health and Wellness/Fuel for Success website offers information about resources for food on our campuses and in the community and has links for community resources. The site offers the schedule for the mobile markets, locations of the food pantries as well as a link for those who wish to contribute their time or money to support our students. <http://cms.montgomerycollege.edu/student-health-and-wellness/fuel-for-success/>

Each of the main campuses has a pantry stocked with snacks and food. Students are welcome to come pick up a snack to carry you through your next class, and to take a few items home.

Campus	Pantry Location	Days & Hours of Operation
Germantown	<i>High Tech (HT) Food Pantry</i> In the hallway, near HT300	9:00 a.m. - 5:00 p.m.

Rockville	<i>Women's' and Gender Studies Program Food Pantry</i> Hallway outside of MT212	Monday-Friday 9:00 a.m. - 5:00 p.m.
	--- <i>Biology Department Food Pantry</i> Science Center, 2 nd floor hallway	Monday-Friday 9:00 a.m. - 5:00 p.m.
Takoma Park/Silver Spring	<i>Commons Food Pantry</i> CM 110 <i>Institute for Justice, Race and Civic Engagement Food Pantry</i> Pavilion 4, #202 Vincent.intondi@montgomerycollege.edu	Monday - Thursday 8:00 a.m. - 7:00 p.m. Saturdays 9:00 a.m. - 1:00 p.m. Monday and Wed: 12:30-4 Tuesday and Thursday: 2-4

VIII. Standards of College Behavior

This section is quoted from the Student Code of Conduct. For more information, please visit http://cms.montgomerycollege.edu/EDU/Verified_-_Policies_and_Procedures/PDF_Versions/42001_Student_Code_of_Conduct/.

The College seeks to provide an environment where discussion and expression of all views relevant to the subject matter of the educational forum are recognized as necessary to the educational process.

However, students do not have the right to interfere with the freedom of the faculty to teach or the rights of other students to learn, nor do they have the right to interfere with the ability of staff to provide services to any student.

Faculty and staff set the standards of behavior that are within the guidelines and spirit of the Student Code of Conduct or other College policies for classrooms, events, offices, and areas, by announcing or posting these standards early in the semester.

If a student behaves disruptively in the classroom, an event, an office, or an area after the instructor or staff member has explained the unacceptability of such conduct and the consequences that will result; the student may be asked to leave that classroom, event, office, or area for the remainder of the day. This does not restrict the student's right to attend other scheduled classes or appointments.

If the student does not leave, the faculty or staff member may request the assistance of Security.

The faculty or staff member must communicate with the student about the incident before the next class meeting to resolve the issue. If a second incident occurs that warrants removal from class, the faculty member again communicates with the student and must send a written report about the incident to the Dean of Student Development with a description of the incident and whether or not the incident is being referred to the formal disciplinary process.

The Dean of Student Development or designated instructional Dean of Workforce Development and Continuing Education should be informed in writing about any situation that should be addressed through the formal disciplinary process. The faculty or staff member will provide the Dean of Student Development with a written summary of the facts or conduct on which the referral is based within 48 hours of the incident for appropriate and effective disciplinary process, which must include the date, time, place, and a description of the incident.

IX. Academic Dishonesty

This section is quoted from the Student Code of Conduct. For more information, please visit [http://cms.montgomerycollege.edu/EDU/Verified - Policies and Procedures/PDF Versions/42001 Student Code of Conduct/](http://cms.montgomerycollege.edu/EDU/Verified_-_Policies_and_Procedures/PDF_Versions/42001_Student_Code_of_Conduct/).

The maintenance of the highest standards of intellectual honesty is the concern of every student, faculty and staff member at Montgomery College. The College is committed to imposing appropriate sanctions for breaches of academic honesty.

See the above link for more information concerning what constitutes academic dishonesty and misconduct as well as possible sanctions imposed as punishment.

Some students have used websites that provide answers to exam or homework questions or write essays for them. To be abundantly clear, using these websites in this way is always cheating. For example, Chegg (which I know is popular) posts answers to homework or exam questions. Even if you didn't post the question, using that website to find answers is a violation of the Student Code of Conduct and posting questions is a particularly egregious violation because you are not only cheating yourself but also enabling others to cheat.

X. Disability Support Services

Any student who needs an accommodation due to a disability should make an appointment to see the course instructor during office hours. In order to receive accommodations, a letter from Disability Support Services will be needed. Furthermore, any student who may need assistance in the event of an emergency evacuation must identify the Disability Support Services Office.

XI. Veterans' Services

If you are a veteran or on active or reserve status and you are interested in information regarding opportunities, programs, and/or services, please visit the Combat2College website at <http://www.montgomerycollege.edu/combat2college/>.

XII. Attendance

Students are expected to attend all class sessions. In cases involving excessive absences from class, the instructor may drop the student from the class, but you are ultimately responsible for dropping yourself from the course. Auto-drop should not be assumed. Excessive absence is

defined as one more absence than the number of classes per week during a fall or spring semester; the number of absences is pro-rated for accelerated sessions.

XIII. Withdrawal and Refund Policy

It is the student's responsibility to drop a course. Non-attendance of classes or failure to pay does not constitute official withdrawal. To view specific drop deadlines, log into your MyMC account, click on "My Class Schedule" under "Student Quick Links." Select the current term and click "View Drop Deadline Dates" at the bottom of the page.

XIV. Audit Policy

All students registered for audit are required to consult with the instructor before or during the first class session in which they are in audit status, and students are required to participate in all course activities unless otherwise agreed upon by the student and instructor at the time of consultation.

XV. Delayed Opening or Closing of the College

On occasion, Montgomery College will announce a late opening or early closing of a specific campus or the entire college because of weather conditions or other emergencies.

- If a class can meet for 50% or more of its regularly scheduled meeting time *or* if the class can meet for 50 minutes or more, it will meet.
- Montgomery College will always operate on its regular schedule unless otherwise announced. Depending on the nature of the incident, notifications of emergencies and changes to the College's operational status will be communicated through one or more communication methods include the College's web page.

XVI. Tutoring

Montgomery College Learning Centers provide academic support resources, including virtual tutoring, to currently enrolled students. All students have access to the STEM Learning Centers, the Academic Success Center, and the Writing, Reading, and Language Centers. Information about specific learning centers and tutoring schedules can be found at <https://www.montgomerycollege.edu/academics/support/learning-centers/virtual-tutoring.html>

There is free economic tutoring available through the Takoma Park/Silver Spring's Academic Success Center. You can get face-to-face tutoring at CM110 at TP/SS. You can get online tutoring via Skype in Rockville's Digital Learning Center at HU307 and in Germantown's Writing/Reading Center at HS150.

The Skype user name is *ASC-tutoring* and keep in mind *no campus has priority*; this is a first-come, first-serve basis regardless of which campus the student comes from. Face-to-face does not have priority over online tutoring.

Keep in mind the tutor may not be able to help you on all material, notably the material that's not part of the official course description. The tutors are least likely to be helpful concerning material that has a N/A next to it under the "Text" section of the course schedule.

The tutoring schedule changes each semester and will be released sometime sometime after the semester begins.

XVII. Course Changes

The instructor reserves the right to alter the schedule of the course if necessary but will notify the students of any changes to the schedule before the changes are implemented.

XVIII. Grading, Evaluation, and Assessment Procedures

Weighing of Assignments

Assignment	Percentage
Course Orientation	1%
Edpuzzles	1% each (5% total)
Blackboard Homework	1% each; lowest two dropped (10% total)
Economic Naturalist Questions	5%
Economic Naturalist Paper	20%
Exams	32% total (lowest is 14%, highest is 18%)
Final	20%
Participation	7%

Note: The weights here indicate that your grade will be determined by a weighted average. Blackboard, by default, posts an unweighted average. (I've tried hiding this number but it still posts in certain places.) As an unweighted average, it's a meaningless number and does not measure your grade to date **at all**. Ignore it. To determine your grade-to-date, use the Excel file linked on my website called [WhatsMyGrade.xlsx](#).

Course Orientation.

This Blackboard "homework" is a short quiz about the syllabus. You have unlimited attempts.

Edpuzzles.

There are three episodes of the podcast Planet Money and a short video by the Competitive Enterprise Institute. To ensure you followed these assignments, you'll be listening/watching to them via Edpuzzle. Edpuzzles prevents you from skipping ahead and requires that you answer some basic questions as you listen to it. You can find the link to the Edpuzzle assignment via Blackboard.

Blackboard Homework.

There will be twelve homework assignments completed through Blackboard. The lowest two will be dropped.

You will have two attempts to complete each homework. After each submission, you will be informed which questions were wrong. Your score for the homework will be your best score among all attempts.

Answers will be displayed after the due date has passed. Therefore, you **cannot** start the homework after the due date has passed and any homework submitted after the due date will **not** be accepted. Blackboard is very strict in this regard; even being one second late will mean you cannot start the homework.

To access the answers, and the feedback for each question, select the View Attempts option that becomes available after the due date has passed. It will display all your attempts' scores; select one of these scores to see the answers and feedback.

Economic Naturalist Assignment.

This assignment is inspired by *The Economic Naturalist* by Robert Frank. It's a collection of short essays that his student wrote for his economic naturalist assignment. You'll be doing the same assignment and these examples will not only help you understand the material but also what to expect of the assignment.

Economics is a widely applicable discipline, able to shed light on a variety of everyday puzzles. But it all boils down to the same principles and themes. This assignment is about you using one of the ideas we discussed in class to explain a puzzle from the world around you.

A document on Blackboard called *The Economic Naturalist Advice* offers additional tips for both asking questions and for answering them.

- *Questions.* I thought about giving you a list of questions to choose from in case you couldn't think of one. But this robs you of one of the advantages of the assignment: forming your own questions and thinking about if they are good or bad and why. So instead you will submit three questions you've come up with. ***Don't answer them***—this is to encourage you to practice seeking puzzles and discourage procrastination. ***Do not use questions from the Frank book, from the readings, or from class. A document on Blackboard called Questions Used in The Economic Naturalist lists all questions from the book; reference that to ensure you aren't repeating a question.***

I suggest you consult the book for ideas and to understand the sort of questions I have in mind. To gather your questions, I suggest you visit the world around you and examine it with a critical eye. Notice the differences in products or procedures. Visit a variety of stores. Study your fellow humans—it's called the economic naturalist because this is the

sort of thing biologists do. Using basic principles of biology you can unravel a variety of mysteries from the world around you. So it is with economics.

- *Economic Naturalist Paper*. With the proliferation of AI and large language models (ChatGPT being the most famous) making academic dishonesty difficult to detect, instead of writing your essay, you will ask an LLM one question and then augment its answer.

Your paper will thus consist of three parts:

1. The prompt you give the LLM.
2. The text, word for word, the LLM gave back to you.
3. Your answer. You have a maximum of 400 words—the best papers are concise and approachable—and the answer has two parts:
 - A **clarification** of your puzzle. Give context to your question so the puzzle is clear. If your puzzle includes differences in prices, for example, then give numbers. If your puzzle asks why something takes “so long,” then use this space to describe how long it takes and why that’s strangely long.
 - Your **revision** of the AI’s answer. Treat the AI answer as a draft essay and your job is to make a better essay. If the AI brought up no worthwhile points, then simply proceed with your answer. Do not evaluate the AI’s draft; your version should stand on its own.

Keep in mind that you are building on what the LLM did, and this requires judgement on your part. Some Dos and Don’ts:

- **Don’t** feel the need to utilize everything the LLM suggests. The LLM will likely give you several ideas, but many of them will be bad. Dismiss bad ideas with a sentence or ignore them completely. Treating bad answers seriously will get you marked down.
 - Example: When answering why some things are sold in bulk, an LLM claimed it was because it was good for the economy and boosts GDP. Terrible answer! Why would a firm care about that?
- **Don’t** simply repeat the LLM wrote or evaluate its draft; your version should stand on its own.
- **Do** keep in mind the LLM may bring up ideas we haven't discussed. If it does, look them up, talk to me, or ignore it in favor of another explanation. These other concepts could act as helpful ways to answer your question, but I'll understand if you want to steer clear of them to avoid getting it wrong.
 - Example: When answering why Germany has zero-tuition college but the U.S. doesn't, the LLM stated that it was because college in Germany is treated like a public good. But "public good" has a precise definition in economics and college clearly doesn't fit in that definition.

- **Do** remember to make the answer is complete. The best questions have an element of paradox to them so unless you solve the paradox you haven't really answered the question.
 - Example: one student once asked "Why are there Phillips head and straight head screws?" An excellent question. But the student answered by describing the history of the Phillips head. The cross shape prevented the screwdriver from slipping away from the screw. But this does not explain why we still have straight screws. The question remained only partially answered.
- **Do** keep "digging" into an answer, asking questions like "but why?," until you reach the economics.
- **Do** refer to the [Economic Naturalist Rubric](#), [sample essay \(LLM version\)](#), and [general answer advice](#) documents to help guide you while writing your response.

Acceptable file formats include docx and pdf. Blackboard does not recognize the pages file type and I have no way of viewing such a file.

Reminder: if you want detailed feedback on your paper, you must request it (e.g. "please give me feedback") in the comment section when you submit your assignment.

Remember to double-space your paper.

Exams.

The two exams will comprise of short answer, true/false and justify, and multiple choice. Since all exam dates are listed here, you will be expected to attend them. Failure of attendance results in a zero for the exam. Exceptions will only be made in extreme circumstances (such as a death in the family) and in those cases written proof (such as a death certificate) must be presented.

The use of any calculator which is built into a phone is not permitted.

Final.

The final is comprehensive. I suggest you review past exams to help prepare.

The final schedule is available now, on the College's website. You have signed up for these classes with this knowledge at hand. I will not let you take your final at a different time just because you don't like your schedule.

Participation.

I'm a strong believer that people learn best if they speak up. It's a good rule not just for learning but for life in general. However because there's a lot of material to cover, we cannot always have

an in depth class discussion. Thus the expectations for participation reflect that—a substantive comment or question once a week will fulfill the requirement just fine.

XIX. Late Policy

For *every* 24-hour period (rounded up) an assignment is late, there is a 10% penalty. Because all assignments are turned in through Blackboard, weekends count towards this period (turning something in Monday morning when it was due Friday at 11:59pm would count at a 30% penalty).

If you miss an exam, you make appropriate arrangements with me and the Montgomery College Assessment Center. There is a form to fill out (the Faculty Test Request Form). I will not allow you to make up an exam after I've graded and passed it back.

Poor Internet or other technical problems is not a compelling reason to turn in an assignment late; this is a foreseeable problem—akin to traffic—and it's a possibility that should be accounted for.

XX. Challenges

Students are encouraged to challenge how any assignment was graded. To challenge the score on a question, *type* a paragraph explaining why your answer is the correct one and are thus deserving of additional points. I am not, repeat *not*, interested in reading about any mistakes you made but why you believe you are more correct than I gave credit. These challenges are due one week after the graded assignment was passed back or posted on Blackboard.

XXI. Reviewing Papers

I'm happy to look at your paper before you turn it in. However you *must* send it to me at least 72 hours before the assignment is due. It is not possible for me to review dozens of papers at the last minute and will refuse to look at any paper any closer to the deadline.

I strongly prefer that you email me your drafts. It prevents long lines outside my door, gives me sufficient room to read and craft thoughtful feedback, and gives you a written record of my thoughts. Barring unusual circumstances, I will email you my thoughts on your draft at least 24 hours before the paper is due, giving you ample time to make revisions.

XXII. Comments

I will always provide comments for your economic naturalist questions because that helps you write your economic naturalist paper. However, it's not clear to me that students generally read these comments. Therefore, comments for your paper will *only* be provided if you opt in by writing "please provide comments" or something like that in the comment section when you submit your paper via Blackboard.

XXIII. GroupMe

To facilitate student inquiries, I've set up a GroupMe chat for the class. You are encouraged to ask questions to me or the class in general. See Blackboard Announcements for the link to join the GroupMe chat.

Please note that all of my 202 sections share the same group chat. The content is the same but deadlines may differ.

XXIV. Study Advice

The general rule of thumb for studying for college classes is at least 2 hours per hour of class per week. That means for this course alone, you should be studying at least six hours a week, not including the time you are in class.

Obviously, this is a crude rule. People learn at different paces and some courses are harder than others so I'm not saying that you must do this to get a grade you'd be proud of, but if you're dissatisfied with how you're doing in this (or any course), adjusting your study time is a good first step, especially if you're like the many college students who study far below that six-hour suggestion.

I get questions about studying—often too late in the semester to do much good—so it's worthwhile to consider *now* the different things you can do to study. Some of these things will seem labor intensive and that's the point. There's no secret trickity trick to understanding something complex. It takes hard, meaningful work and that takes time.

- Form a study group and meet regularly. The best way to learn is to teach others.
- Read the lecture notes before class.
- Read the lecture notes the day after class. Reading them out loud is also helpful.
- Reorganize the lecture notes so that different ideas connect in different ways.
- Take practice exams under time pressure. Only look at the key after you've completed the exam.
- Work through any bonus problems I've created. Only look at the key after you've worked through the problems.
- Review the homework before trying it. Sometimes students will look at the homework before the class we covered in the material in, which I suspect is helpful.
- Copy your notes, by hand. This can lead to you discovering gaps in your notes that you didn't realize you had, allowing for ample time to fill the gaps.
- Visit office hours. Remember, you do not need an appointment; you can just drop in.
- Read the suggested textbook. You might also want to look at YouTube videos but if they contradict the class materials or seem confusing, talk to me.

XXV. What's My Grade?

If you want to know your grade-to-date, multiply your score on each assignment by its weight (indicated in the previous section). Then divide by the total percent assigned so far. Compare the result with the grading scale (below) to determine your grade.

Linked on my website, there's an Excel file called [WhatsMyGrade.xlsx](#). Download this file and then follow the instructions: (1) selecting the correct class from the tabs at the bottom; (2) fill in the scores for the assignments you've completed so far, marked in blue; and (3) look in the yellow area for your grade-to-date. Note this is not a perfect measure, especially since participation has an outsized influence in the start of the semester, but it should give you an accurate idea of where you stand.

Note that the first two homeworks don't add to your weight total because I drop the lowest two homeworks for your final grade.

Grading Scale (points or percent needed for specific grades). Your grade, for both the midterm and the semester, will be determined by how many points you've accumulated throughout the class (by the table below).

A: 90+		B: 80-89.99		C: 70-79.99		D: 60-69.99		F: 0-59.99
--------	--	-------------	--	-------------	--	-------------	--	------------

Note that these are strict bounds: if you get 89.89 points for the semester, that's a "B," not an "A." I will only "round up" if I feel it's appropriate. This may mean you:

- Regularly went above and beyond what's required for full credit (such as participation);
- Exhibited increasing mastery of the material as the semester moved forward (impressive, since the material gets harder as the semester moves forward); and/or
- Consistently demonstrated an understanding of particularly important question(s), especially if your fellow students had trouble with such question(s).

XXVI. Bibliography of additional resources

The courses Marginal Revolution University [offers many videos](#) on economics which might prove useful to help you through this course.

If you seek a different medium, economist Russ Roberts hosts EconTalk: hour-long podcasts that covers economic topics geared to the non-economist. The website is www.econtalk.org. Because each podcast is often organized in a different way than how I set up the course, here's a list of my suggested podcasts. (Keep in mind some parts of these podcasts introduce concepts that I will not be covering or are otherwise complications the basic theory I present. If you are looking for clarification on the lectures in the context of the talks, feel free to ask me.)

- [Vernon Smith on Markets and Experimental Economics](#)
- [Mike Munger on the Division of Labor](#)
- [Canice Prendergast on How Prices Can Improve a Food Fight \(And Help the Poor\)](#)
- [Bryan Caplan on College, Signaling and Human Capital](#)
- [Wally Thurman on Bees, Beekeeping, and Coase](#)

- [Elizabeth Pape on Manufacturing and Selling Women’s Clothing and Elizabeth Suzann](#)
- [James Tooley on Private Schools for the Poor and the Beautiful Tree](#)
- [Erica Sandberg on Homelessness and Downtown Streets Team](#)
- [Mitch Weiss on the Business of Broadway](#)
- [Roger Berkowitz on Fish, Food, and Legal Sea Foods](#)
- [Greg Page on Food, Agriculture, and Cargill](#)
- [Nathan Blecharczyk on Airbnb and the Sharing Economy](#)
- [Don Boudreaux on Buying Local](#)
- [Alex Guarnaschelli on Food](#)

XXVII. Tentative Course Schedule:

The following table describes this course day-by-day. “#” indicates which numbered lecture is covered that day which will aid you finding the lecture notes on my website. “Text” indicates the chapter of the textbook we will be referencing that day. Note the readings and other media indicated in the farthest right column are *required*. Blackboard homework is always due the night before the exam at 11:59pm.

UNIT	DATE	#	TOPIC	TEXT	READINGS
I	01/28	01	Introduction	1	
	01/30	02	Marginal Analysis & Supply and Demand	2	EN Essays Part 2
	02/03	COURSE ORIENTATION DUE AT 11:59PM			
	02/04	03	Shifting Supply and Demand	3	
	02/06	04	Reviewing Supply and Demand	N/A	
	02/10	HOMEWORK 1-2 DUE AT 11:59PM EDPUZZLE: I, PENCIL: THE MOVIE¹ [6:33]			
	02/11	05	The Price System	N/A	
	02/13	06	Price Controls	3	
	02/17	EDPUZZLE: A NEW WAY TO PAY FOR COLLEGE [28:54]			
	02/18	07	Asymmetric Information	16	EN Essays Part 6
	02/20	08	Labor Markets and Trade	19	Adam Smith²
	02/24	HOMEWORK 3-4 DUE AT 11:59PM			
	02/25	EXAM 1			
II	02/27	09	Elasticity I	5	
	03/03	EDPUZZLE: WE BUY A LOT OF CHRISTMAS TREES [30:59]			
	03/04	10	Elasticity II	5	
	03/06	11	Price Discrimination I	N/A	
	03/10	ECONOMIC NATURALIST QUESTIONS DUE AT 11:59PM			
	03/11	12	Price Discrimination II	N/A	
	03/13	13	Reviewing Elasticity and PD	N/A	
	03/18	NO CLASSES—SPRING BREAK			

¹ Here’s the essay the video is based on: <https://fee.org/resources/i-pencil-audio-pdf-and-html/>

² Book One, Chapters 1-3 (I.1.1 to I.3.8):

https://www.econlib.org/library/Smith/smWN.html?chapter_num=4#book-reader

III	03/20				
	03/24	HOMEWORK 5-6 DUE AT 11:59PM			
	03/25	14	Taxes and Subsidies	N/A	
	03/27	15	Types of Goods	13	
	04/01	16	Externalities and Market Failure	12, 13	
	04/03	17	Solving Externalities	12, 13
